🎖 PROFESSIONAL SUMMARY

Enthusiastic Computer Science student with hands-on experience in web development, full-stack projects, and ServiceNow application development. Skilled in Java, JavaScript, React, Node.js, and MongoDB, with a strong foundation in data structures and algorithms. Proven ability to deliver responsive, user-friendly applications during hackathons and internships. Seeking an entry-level developer role to contribute to impactful projects while growing technical expertise

💼 INTERNSHIPS & TRAININGS

Frontend Developer, *Aroma Brand Solutions*
11/2024 – 02/2025
- Building and maintaining responsive, user-friendly web interfaces.
- Actively contributing to project discussions and implementing feedback for continuous improvement.

Web Development Intern, *Bharath Intern*
03/2024 – 04/2024
- Developed responsive and mobile-friendly web pages using HTML, CSS, and JavaScript. Independently managed tasks, and time-management skills.
- Delivered a portfolio website within deadline showcasing responsive design and interactivity.

📂 ACADEMIC PROJECTS

Portfolio Website (React) ⧉
- Developed a responsive and interactive personal portfolio website using **React.js** to showcase projects, skills, and experience.
- Created clean, maintainable UI components and applied custom styling to deliver a polished user experience across devices.

MealMap, *Developed during a 24-hour hackathon*
02/2025
- Built a location-based food-sharing platform connecting donors and receivers to reduce food waste.
- Implemented map integration for real-time food location tracking and user interaction.
- Enabled donor-receiver communication through comment features for better coordination.

Hackathon Website, *Hackathon Project*
12/2024
- Developed a dual-portal system for organizers and participants to manage and register for hackathons.
- Integrated an AI chatbot for user support and real-time event guidance.
- Achieved seamless event promotion and participant onboarding during an 8-hour hackathon.
